

Yorkshire Chemical Focus (YCF) is Seeking New Directors

Over the last 5 years, YCF has emerged to become West Yorkshire's leading cluster organisation for Chemical and Water industries and more recently has taken on responsibility for creating a national hub for formulation.

Operating from offices in Huddersfield, its team has become extensively integrated into the private, academic and public sectors and universally respected for the ability to engage with stakeholders, both regionally and nationally. The ethos of the organisation is to deliver outstanding and tangible benefits to the target sectors by acting on behalf of all companies regardless of size or activity. It is an independent not-for-profit company limited by guarantee with funding principally arising through grants from Yorkshire Forward; the regional development agency for Yorkshire and Humber.

Due to the planned retirement from the Board of a number of existing Non-Executive Directors, the organisation is now seeking to make additional appointments to help guide the company through its next stage of development. The Board establishes a strategic vision for the direction of the company to secure its future sustainability and ensures that its strategy is focussed effectively on the needs of the region. The Board consists of a small group of committed individuals who typically meet once a quarter.

Prospective candidates will be business leaders who are passionate about the industry in general and willing to donate a small amount of time in order to support its future development and growth within the region. They will be strategic thinkers, familiar with process-related or water-based industries and able to constructively contribute to the commercial direction and corporate governance of the company, as well as occasionally acting in an ambassadorial capacity with stakeholders from a wide range of bodies.

YCF is seeking broad business acumen and insights from both large and small companies; it is the personal qualities and capabilities of Directors that are important, not the companies they represent.

To find out more about YCF and the exciting future challenges, please visit our website at www.ycf.org.uk. For a confidential, informal discussion about becoming a Non-Executive Director with YCF please arrange to speak to the Interim Chairman; Steve Bennett, for an initial discussion. He can be contacted on 07946 650120 or via e-mail at steve@transitionplus.co.uk.
